Location: Approximately 15 nm south of the complex support facility

Type: III C

Stage of Construction: Early

25X1D

The probable launch site consists of a secured area, possibly double fenced, containing an excavation with a rectangular earth mound on the SE side and a square mound on the NW side. The site support facility, consisting of 2 large rectangular buildings and other smaller buildings, is under construction WNW of the excavation. Track activity and excavations are prominent throughout the area.
